

PROJECT: **38<sup>th</sup> Street Bridge Reconstruction**

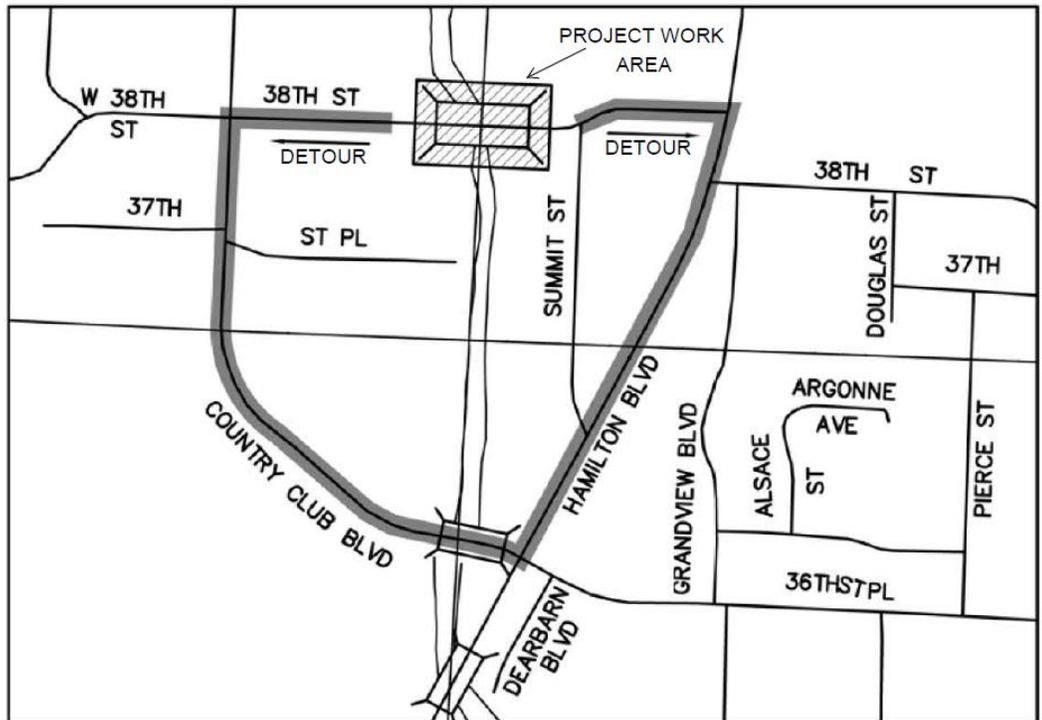

CONTRACTOR: Dixon Construction Co.  
409 Driftwood St.  
Correctionville, IA 51016

**GENERAL PROJECT INFORMATION**

The Engineering Division of the City’s Public Works Department would like to announce the start of the **38<sup>th</sup> Street Bridge Reconstruction Project (38<sup>th</sup> Street Bridge over Perry Creek)**. The work is anticipated on or about June 27, 2016. The scope of the project includes replacement of the 38<sup>th</sup> Street Bridge over Perry Creek and construction of approach pavement leading up to the bridge. The project will include sidewalk and underground utility work as needed in the vicinity of the project. Disturbed areas will be reseeded by the contractor.

During construction 38<sup>th</sup> Street will be closed at Perry Creek and traffic will be redirected along Hamilton Boulevard and Country Club Boulevard. It is planned to locate the road closure signs so traffic can be maintained to all properties during construction. We do not anticipate that garbage, mail service, water, gas, or electric services will be interrupted during construction.

We anticipate that the Contractor may work from 7:00 am to 7:00 pm Monday thru Friday, and 7:00 am to 12:00 pm (noon) on Saturday. These hours may be adjusted so the contractor can maintain his desired schedule.

**Unplanned water outages:**

Unexpected water main breaks do happen during construction. As soon as an unplanned water main break occurs, the Contractor and/or the City will work on getting the water service reestablished as soon as they can. Residents will not be notified during water main break emergencies. If a water main break occurs after hours, you can report to the City’s emergency number at 279-6150.

**PROJECT CONTACTS**

You may contact the Contractor or the City at any point during construction for more information regarding the project schedule. The City’s Project Inspector will be on-site daily if you have questions or concerns. Project updates will also be provided on the project website at [www.sioux-city.org/engineering/3254](http://www.sioux-city.org/engineering/3254). Project contacts are listed below:
