The Citizen's Financial Guide is a brief financial overview of the City of Sioux City's budget for the fiscal year 2015. Readers are encouraged to visit the City's web site at sioux-city.org for a complete copy of the Approved Fiscal Year 2015 Operating Budget and the FY15 - FY19 Capital Improvement Program.

City Council Organizational Chart

SCHEDULE OF CITY OFFICIALS

April 1, 2014

Elected Officials

Term Expires

Mayor	Robert E. Scott	January 1, 2016
Mayor Pro Tem	Keith Radig	January 1, 2018
Council Member	Rhonda Capron	January 1, 2016
Council Member	Pete Groetken	January 1, 2018
Council Member	Dan Moore	January 1, 2018

Council Appointed Officials

Date of Appointment

City Manager	Robert Padmore	February 3, 2014
City Attorney	Nicole Jensen-Harris	October 3, 2011

City Manager and Board Appointed Officials

Date of Appointment

Airport Director	Vacant	
Art Center Director	Albert Harris	March 25, 2002
Assistant City Manager for Administration	Mike Collett	March 3, 2014
Assistant City Manager for Public Works	Jade Dundas	March 3, 2014
Economic/Community Development Director	Martin Dougherty	March 24, 2014
Events Facilities Executive Director	Erika Newton	October 21, 2013
Finance Director	Donna Forker	March 24, 2014
Fire Chief	Tom Everett	October 13, 2008
Human Resources Director	Bridey Hayes	June 27, 2005
Human Rights Commission Director	Karen Mackey	March 22, 2004
Library Director	Betsy Thompson	June 21, 1995
Museum Director	Steve Hansen	December 17, 2001
Police Chief	Doug Young	April 1, 2009

INTRODUCTION

Who Pays Property Taxes in Iowa?

The Iowa property tax is primarily a tax on "real property," which is mostly land, buildings, structures, and other improvements that are constructed on or in the land, attached to the land, or placed upon a foundation. Typical improvements include a building, house or mobile home, fence, and paving.

Home owners pay 47% of the property taxes collected each year in Iowa. Farmers pay 19%, and businesses and industry, a total of 28%. Utility companies, including railroads, pay 6%.

Who Determines Your Property Taxes?

State Legislature

- * Establishes Property Classes & Class Rates
- * Determines Levels of State Aid
- * Sets Levy Limits

City Assessor

- * Determines Market Value (every 2 years - odd years)
- * Assigns Property Class

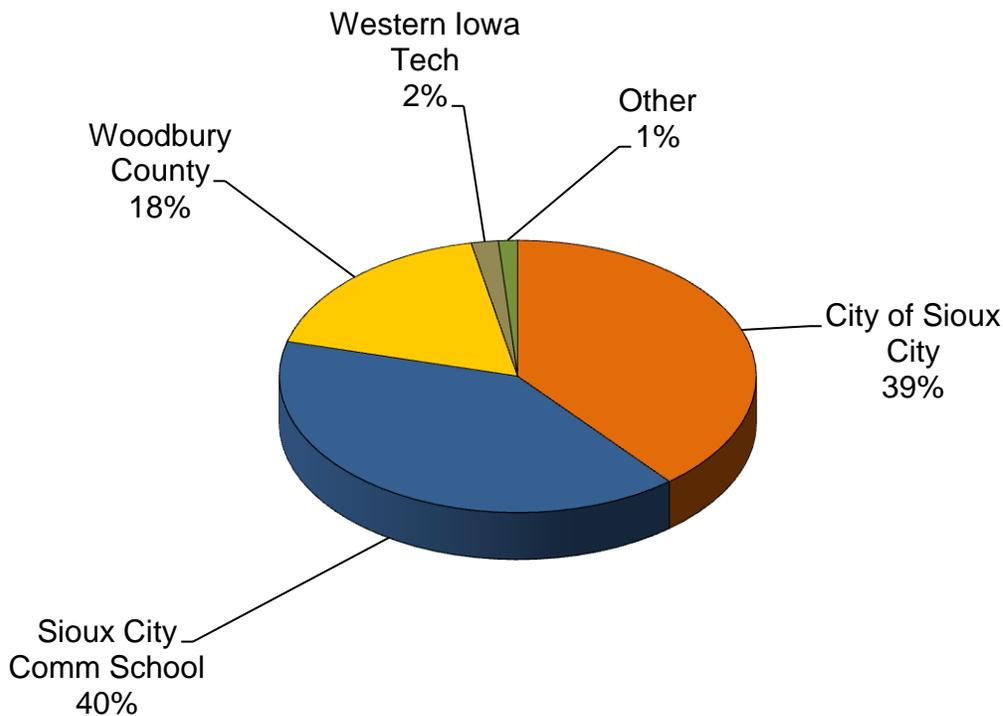

Local Taxing Jurisdictions

- * Determines Levy Amount (based on budget requirements)

Who Benefits from Property Taxes in Sioux City?

Property tax supports many different "taxing authorities." Cities, counties, school districts, and counties are the most common. Taxing authorities may also include community colleges, agricultural extension services, assessor offices and the state. Iowa has more than 2,000 taxing authorities. Sioux City residential taxes include seven taxing authorities.

How are City Taxes Calculated?

The value of your property is established by the City Assessor. This value is multiplied by the rollback factor. The rollback factor was put in place by the Iowa Legislature thirty seven years ago. It was to help cushion the impact of high inflation on residential property values.

Increases in assessed values for residential and agricultural property are subject to this assessment limitation. If the statewide increase in values of homes and farms exceeds 3% due to revaluation, their values are "rolled back" so that the total increase statewide is 3%. Rollback is also applied for industrial and commercial property when necessary.

The taxable value is the assessed valuation multiplied by the rollback factor. This taxable value can be adjusted by numerous tax credits; homestead credit, military exemption, ag land credit, elderly tax credit, etc. The adjusted assessed valuation is then multiplied by the City tax rate which results in your City taxes.

Assessed Valuation	\$98,750
Rollback Factor	<u>54.40%</u>
Taxable Value before Credits	\$53,720
Deduct Credits	(\$4,850)
Taxable Value	<u>\$48,870</u>
City Tax Rate per \$1,000 of Value	\$16.36
Gross City Taxes	\$800

TAX INCREMENT FINANCING (TIF)

What is tax increment financing?

Tax increment financing is a financial tool widely used by the City to promote economic development and redevelopment. The TIF process splits property tax revenue generated from properties within the TIF district into two components:

*Frozen Base - At the time the TIF district is established whatever the value is at that time is frozen.

*Increment - As development occurs and property values increase, the increase in the value beyond the frozen base is the increment value. All property tax dollars are collected on the increment and kept in the TIF (with the exception of debt service levies), generating a revenue stream to underwrite projects within the TIF district and to provide development assistance to encourage growth.

Why does the City use TIF?

TIF is used in Sioux City as an economic development tool. It is one of the few tools the City can use to assist businesses locating or expanding in Sioux City. TIF is considered "self-financing" as revenues generated from the increased property values are used to pay for the cost of the financial help provided to the business.

What can TIF be used for?

TIF can be used to construct infrastructure which allows for development in undeveloped or underdeveloped areas. Infrastructure consists of things like, streets, water lines, sewer lines, detention ponds for storm water runoff, storm sewers, traffic lights, sidewalks, etc.

TIF can also be used to provide financial incentives to encourage a business to locate or expand in Sioux City. This could be in the form of forgivable loans or other incentives.

TIF revenue can not be used for project or expenses which do not benefit the TIF district

Does TIF hurt other Government Jurisdictions?

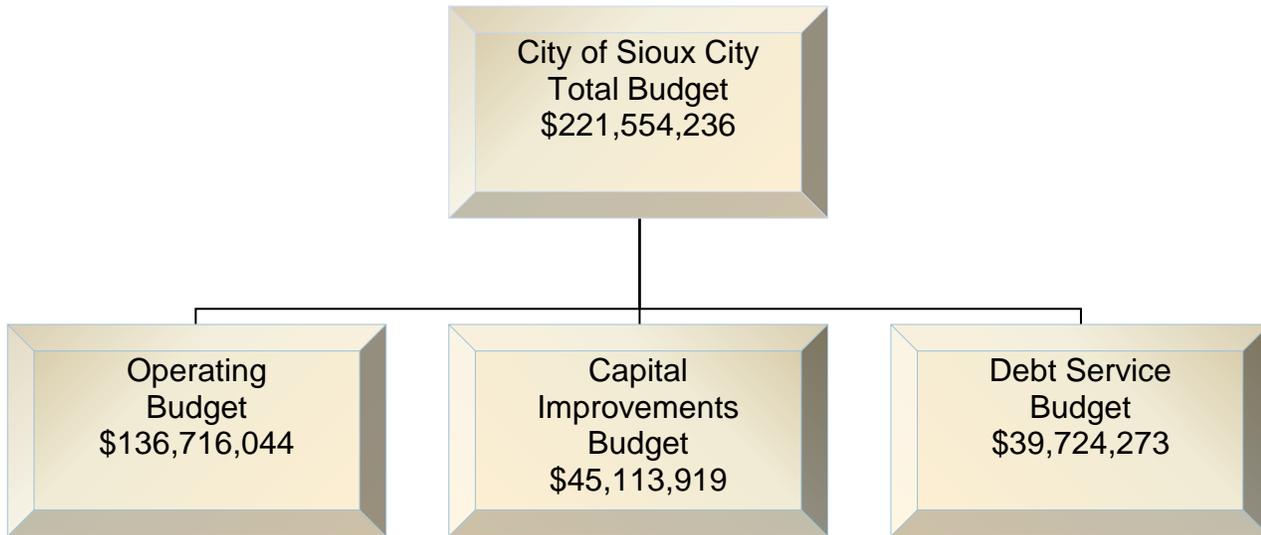

An argument can be made that TIF provides benefit to all taxing entities in time. Many developments would not have happened had TIF financing not been available. Many of the projects which used TIF have shown value increases far beyond the amount of the incentives given. Many times the increased value is in excess of the amount need to support the TIF and is released back into the general tax base. Additionally, when the TIF district ends the full value of the increment is added to the general tax base. The TIF developments also provide additional revenue growth to the City's economy in the form of increased sales taxes, increased jobs and other community growth factors.

BUDGET OVERVIEW

BUDGET CALENDAR

By July 1	Mayor, Council and persons responsible for overall preparation of the budget must discuss general policies relating to next year's budget in light of the City's financial plan.
By August 1st	The Budget Officer prepares the instructions and budget estimate sheets and forwards them to the City departments. The instructions may properly include a policy statement to guide department heads in preparation of the estimates and detailed instructions for the completion of forms.
Aug 1st - Oct 4th	The Budget Officer must prepare a statement of the debt service requirements for payment of principal and interest and fixed charges which the City must pay. An estimate must also be made of all revenues which the City will receive.
By December 27th	The Budget Officer must review the budget estimates and prepare a summary statement for the coming fiscal year. If the expenditures exceed the revenues or conflict with the City financial plan, the City Manager will find it necessary to prune departmental requests or to suggest new revenue sources for the proposed budget.
By January 8th	Have a sufficient number of copies of the Program Budget and Capital Improvements Program available to meet the requests of taxpayers and organizations at the offices of the Mayor, City Clerk and City Library. Copies must also be available ten days before the Public Hearing, whichever is earlier.
By January 25th	The Council will receive the Proposed Budget and set dates for budget hearing with the City Manager.
On February 24th	Adopt a Proposed Budget and set the date for Public Hearing as required by law. The Clerk shall publish the Budget estimate and Notice of Hearing ten to twenty days prior to the date set for the hearing in a newspaper having general circulation in the City.
By March 15th	The Clerk shall certify the adopted Budget and Tax Levy in duplicate to the County Auditor who will send one copy to the Director, Department of Management after calculating the tax rates.
By May 31st	The City Budget shall be amended for the current fiscal year to allow time for a protest hearing to be held and a decision rendered before June 30th. The amendment of a budget after May 31st, which is properly appealed, but without adequate time for hearing and decision before June 30th, is void.

*Includes Internal Service Funds.

NET OPERATING EXPENDITURES

FY 2014-2015 Approved Budget
Total Net Expenditures \$146 Million

The City's Operating Budget includes a number of separate funds. The General Fund Budget, which provides most of the tax supported services, is about one third of total City operating expenditures.

The enterprise funds include the Water, Sewer and Solid Waste Utilities, the Parking System, the Skyway System and the Airport. These represent one fourth of the operating expenditures.

Debt Service accounts for less than twenty percent of total operating expenditures.

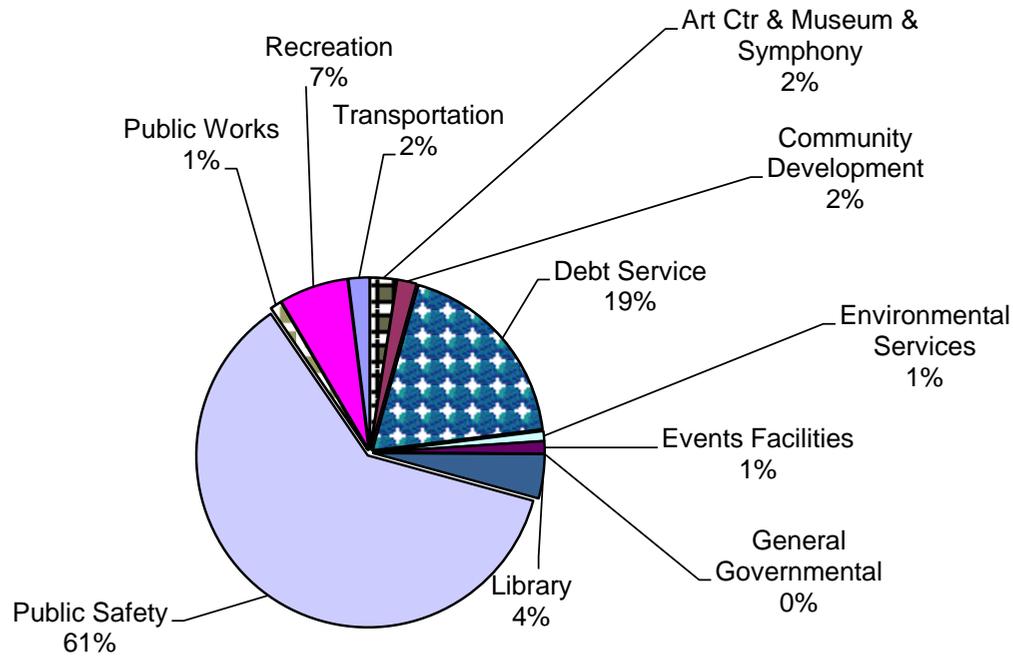

Other funds include the Convention Center, Auditorium and Tourism (EFAB) fund, the Road Use Tax fund, Transit, Housing and Community Development funds which represents twenty percent of the operating expenditures.

Internal Service funds and transfers are excluded from net operating expenditures.

WHERE PROPERTY TAXES GO

FY 2014-2015 Approved Budget
Total Property Taxes \$39,638,135

The property tax levy rate proposed is \$16.36, a .72% increase. The taxes on commercial and industrial will decrease \$70 per \$100,000 of valuation. Changes in the State mandated rollback, 54.4002% for FY 2015 and 52.8166% in FY 2014, will cause residential taxes to increase \$25 on a typical residence of \$98,750 and the levy rate change will increase the typical residence taxes \$6, for a total increase of \$31.00.

TAX LEVIES

The tax levy for FY 2015 is to increase .72% from the FY 2014 rate. Due to changes to State mandated rollback factor, taxes on the typical residence will increase by \$25 and raising the levy rate will increase taxes on the typical residence \$6. Taxes on Commercial and Industrial properties will decrease \$70 per \$1,000 of taxable value.

Levy Definitions

General Fund Levy

The State Code of Iowa section 384.1 sets forth the general fund levy for Cities. The general fund levy is used to pay for police, fire, parks, cemeteries, general administration, art center, museum, library, inspection services and planning. The code states "A city's tax levy for the general fund shall not exceed eight dollars and ten cents per thousand dollars of taxable value in any tax year, except for the levies authorized in section 384.12." The City has been at the \$8.10 maximum levy limit for the last thirty two years.

Emergency Levy

The State of Iowa allows for the Emergency Levy in instances where a city has reached the \$8.10 General Fund levy and has additional taxation needs. A city may establish an emergency fund and may certify taxes not to exceed twenty-seven cents per thousand. This levy can only be used if a city is at the maximum General Fund Levy of \$8.10.

Debt Service Levy

The City's Debt Service Levy is used to fund the annual payments on the money the City has borrowed to fund the Capital Improvement Plan and other purposes. Section 384.4 of the Code of Iowa states, "A city shall establish a debt service fund and shall certify taxes to be levied for the debt service fund in the amount necessary to pay:

1. Judgments against the city, except those authorized by state law to be paid from other funds.
2. Interest as it becomes due and the amount necessary to pay, or to create a sinking fund to pay, at maturity of all general obligation bonds issued by the city or to pay, or to create a sinking fund to pay, amounts as due on loans received through the Iowa community development loan program.
3. Payments required to be made from the debt service fund under a lease or lease-purchase agreement.
4. Payments required to be made from the debt service fund under a loan agreement."

This levy is unlimited.

Employee Benefits Levy

The Employee Benefits Levy, known as the Trust and Agency Levy under Iowa Code, is used to fund the employee benefits of the City, including retirement and health insurance. There is no maximum for this levy under State of Iowa law, but can be used only to fund employee benefits.

Transit Levy

The State of Iowa allows Cities to levy a property tax for the operation of a transit system. The amount of the levy is limited by State of Iowa law to no more than \$.95 per thousand dollars of assessed value. The revenue generated from this levy is used to fund the operation and maintenance of a municipal transit system. These funds are used to fund the operation in instances the revenues from the transit system, such as fares, are insufficient for such purposes.

Insurance Levy

The State of Iowa allows Cities to levy a property tax to fund premium costs on tort liability insurance, property insurance and any other insurance that may be necessary in the operation of the city, and the costs of a self-insurance program. This levy has no maximum, but its use is limited to the actual costs of the insurance program.

Convention Center Levy

Under State of Iowa law, the City of Sioux City may levy property taxes to support payments and operations of a leased civic center. The levy has no maximum, but is limited to an amount sufficient to pay the installments of rent and maintenance, insurance and taxes not included in the lease rental payment. The City has a lease arrangement with the Siouxland Chamber of Commerce to lease our Convention Center from them in order to utilize this levy. The current lease will expire on June 30, 2017.

Auditorium Levy

State of Iowa law allows the City to levy a property tax not to exceed \$.135 per thousand dollars of assessed value each year for operating and maintaining a civic center owned by a city.

Symphony Levy

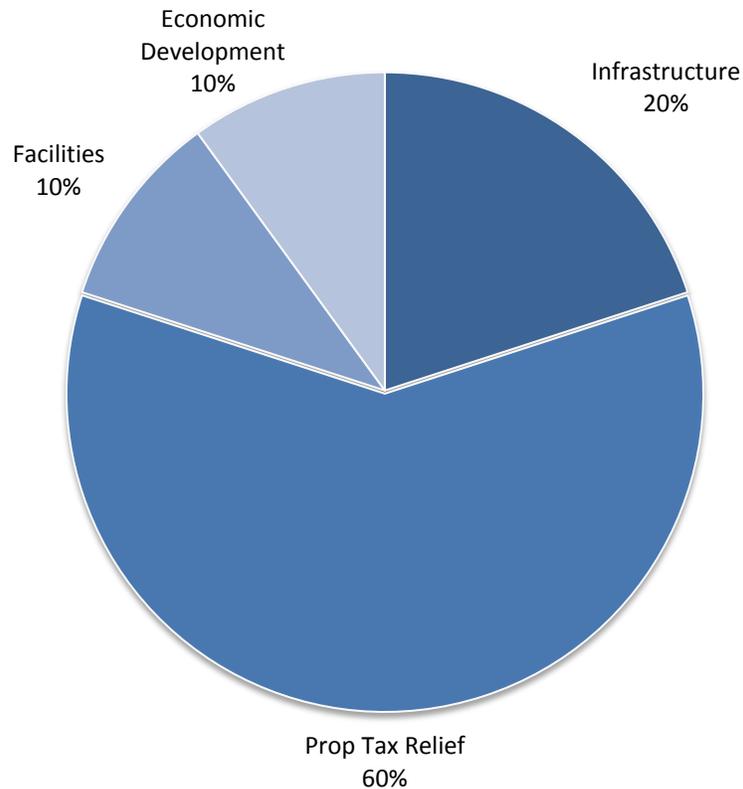

State of Iowa law allows the City to levy a property tax of no more than \$.81 per thousand dollars of assessed value for support of a symphony orchestra.

Band Levy

State of Iowa Law allows the City to levy a property tax of no more than \$.135 per thousand dollars of assessed value for the support of instrumental or vocal musical groups, one or more organizations which have tax-exempt status under section 501(c)(3) of the Internal Revenue Code and are organized and operated exclusively for artistic and cultural purposes.

LOCAL OPTION SALES TAX ALLOCATION

Local Option Sales Tax proceeds are allocated to specific purposes as approved by referendum. Each budget year the estimated future proceeds as well as any local option sales tax balances not previously allocated are budgeted to meet these specific purposes.

The Local Option Sales Tax provides property tax relief in two ways. First, the 60% portion of the sales tax goes directly toward reducing taxes. Second, the 20% portion of the sales tax allocated for infrastructure reduces the need for borrowing which reduces debt service costs in future years.

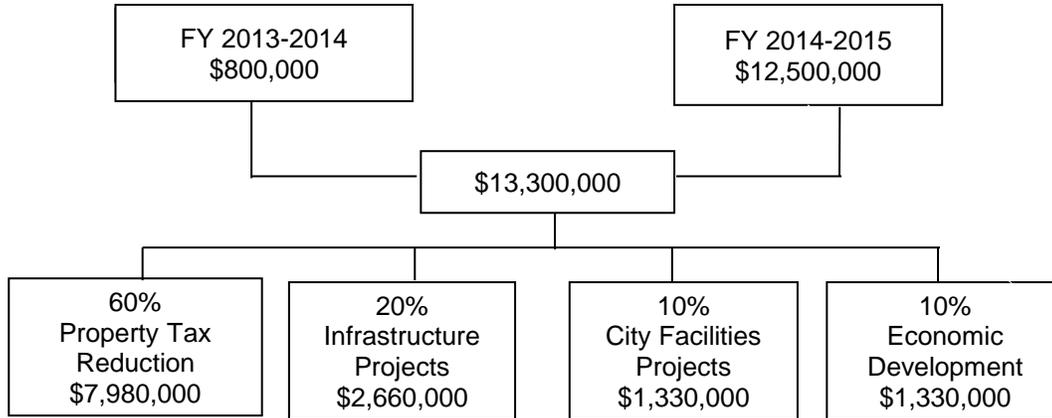

Currently, the 10% of sales tax allocated to facilities is being used to offset the cost of maintaining City facilities.

The economic development portion of the sales tax provides for direct costs related to economic development activities and loans or grants to economic development projects in Sioux City.

SALES TAX ALLOCATIONS

In FY 2014-2015 Approved Budget

The Local Option Sales Tax approved by referendum in 1986 has enabled the City to reduce the property tax rate, reduce borrowing for maintenance of infrastructure and provide for new city facilities and economic development. The allocations shown reflect the approved Capital Improvements Plan.

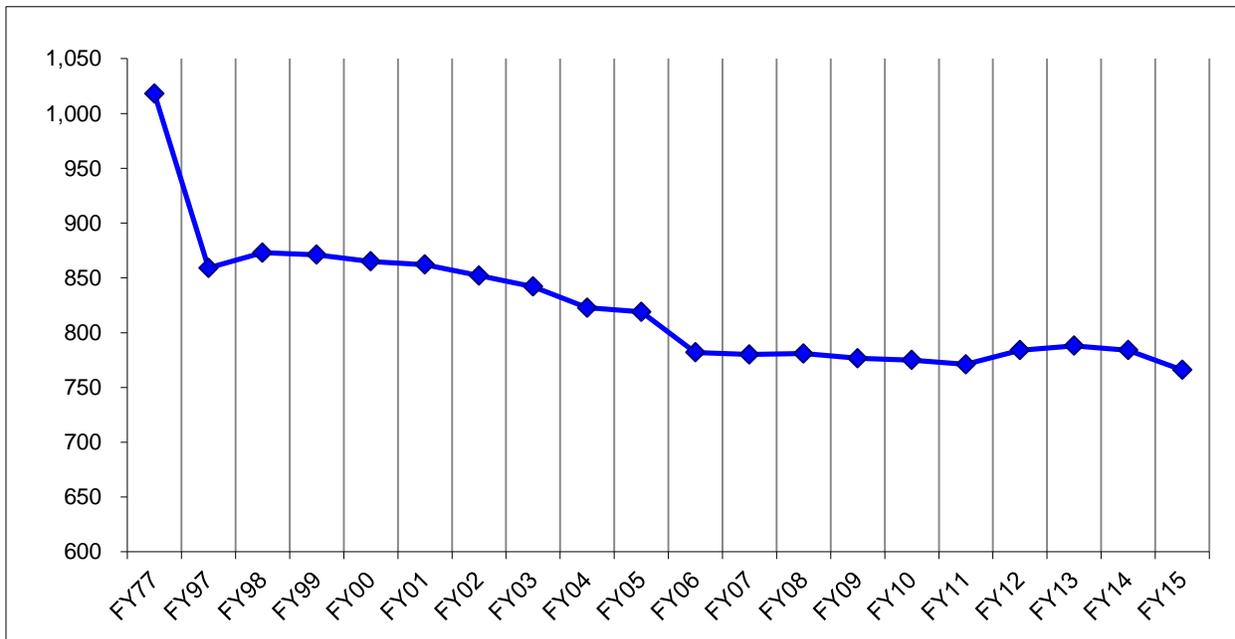

PROPERTY TAX REDUCTION			
General Fund Tax Reduction	\$7,980,000	\$7,980,000

Percent Increase/Decrease Over Prior Year

Assessed Value includes ag land (\$14,753,000) and increment values. Taxable Value represents rolled back Assessed Value minus ag land and increment value. Taxable Value is also known as the tax base. Increment value represents value sequestered by the City of Sioux City and Western Iowa Tech Community College to fund tax increment debt. Increment values are included in the taxable value used by all jurisdictions for debt service levies.

Comparison of Monthly Utility Charges

Cities are shown in order of charges for utility services combined. The City of Ames has private solid waste services. Cedar Rapids, Davenport, Iowa City, Sioux City and Des Moines solid waste rates include fees for recycling. Comparisons are based on a survey by the Finance Department for December 2013 rates.

FUND ANALYSES

FUND ANALYSES

General Fund

The **General** fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The General fund in FY 2015 is funded primarily by property taxes and payment by other funds for services provided. The maximum general fund levy is \$8.10.

Special Revenue Funds

Special Revenue funds are used to account for the proceeds of specific revenue (other than expendable trusts, or major capital projects) that are legally restricted to expenditures for specified purposes.

Other Employee Benefits - To account for the City's employee benefits tax levy. In FY 2015, this levy is set at \$3.43 per thousand.

Emergency Fund - To account for the Emergency tax levy, This levy in FY 2015 is set at \$.27 per thousand. This levy can only be levied if the general levy is at the \$8.10 cap.

Storm Water Drainage - To account for the collection of revenues for the storm water drainage fee.

Road Use - To account for State revenues allocated to the City for maintenance and improvements of City streets. The City receives revenue from the State on a per capita basis. The projected per capita for FY 2015 is \$97.50.

Community Development - To account for the use of Community Development Block Grant (CDBG) funds as received from the Federal Government.

Housing - To account for the operations of Federal Section 8, low income housing projects and municipally sponsored rent payment assistance programs.

Main Street - To account for the collection of a levy to fund the revitalization of the City's downtown area. Revenues collected for this fund are used by Downtown Partners.

Events Facilities Bureau - To account for revenues generated by the operations of the Convention Center, Tyson Events Center, IBP Ice Center, Orpheum Theatre, and the Tourism Bureau. The levy in FY 2015 for the fund is \$.23 per thousand.

Transit System - To account for the Transit levy and operations of the City's bus and other transit services. The transit levy is \$.40 per thousand in FY 2015.

Permanent Fund

Permanent funds are used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the City's programs.

Cemetery Trust - to account for the activity of the perpetual care trust of the City.

Enterprise Funds

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business - where the intent of the City is that the costs of providing goods or services to the public on a continuing basis should be financed or recovered primarily through user charges.

Airport System - To account for the operations of the Sioux Gateway Airport. In FY 2015, due to Airport struggles to maintain revenues adequate to cover expenditures that continue to increase, an operating subsidy of over \$517,077 from property taxes is required.

Water System - To account for the operations of the City's water facilities and services. In FY 2015 the fund will raise rates 7%.

Sewer System - To account for the operations of the City's sewage treatment facilities and services

Solid Waste System - To account for the collection of solid waste in the community.

Parking Facilities - To account for the operations of the City-owned parking ramps and other parking facilities.

Skywalk System - To account for the maintenance and security of the skywalk system. All expenses are paid by properties connected to the Skywalk System.

Internal Service Funds

Internal Service funds are used to account for the financing of goods or services provided by one department to other departments of the City, on a cost-reimbursement basis.

Central Maintenance Garage - To account for maintenance and repair services for the City's automotive equipment and acquisition of replacement equipment.

Comprehensive Insurance - To account for the funding and maintenance of the City's insurance policies provided to user departments.
