

Debbie has set herself apart with ongoing distinguished service to the City and to our citizens during some challenging times. She has provided unmatched and significant assistance and guidance to numerous staff within Public Works, Utilities, Engineering, and others. During the transition of Public Works to splitting out Utilities and hiring a new director, Debbie was instrumental in assisting the Interim Director in keeping the department running smoothly, even during the installation of new carpet and the relocation of Purchasing to the 4th floor. This required reviewing and culling many years of documents and files. She effectively anticipated the needs of the new Utilities Director and sometimes provided service before he was aware of the need. In addition her hard work in her regular position, Debbie gives her time to such activities as the Employee Activities Committee, and the United Way Campaign. Thank you Debbie, for all that you do to assist co-workers and citizens!
