

Downtown stakeholders are encouraged to share their views about the future of downtown Sioux City as part of the Downtown Economic Development Study. A wide range of groups including businesses, downtown property owners, economic development professionals, and cultural organizations are invited to participate during the International Economic Development Council (IEDC) Site Visit. Discussions and events will take place March 26-28 at the Sioux City Convention Center with a team of panelists including downtown practitioners and IEDC staff.

An agenda for the IEDC Site Visit follows detailing invited attendees and the purpose for each meeting. All stakeholders are invited to attend the public meeting held on Monday, March 26 at 5:00 p.m. and the presentation of preliminary findings on Wednesday at 1:00 p.m. at the Sioux City Convention Center.

The downtown study will focus on and seek solutions for several key economic development issues such as generating new investment, market rate housing, revitalization of historic buildings, and most importantly, job creation. Data collection relating to property owners in downtown Sioux City, market rents and inventory, occupancy rates, cultural/arts reports, and recent revitalization efforts with developers began in February followed by a preliminary site visit by a representative from the IEDC team. Preliminary findings will be presented at the end of the three day site visit with a final report presented in the summer.

The City of Sioux City and Downtown Partners are working with the IEDC to develop an economic development assessment of downtown Sioux City to increase jobs and investment in the downtown. IEDC, the world's largest membership organization serving the economic development profession, is conducting research and will draft a background report that summarizes the key economic development characteristics and issues facing downtown. The study is funded by a \$40,000 federal grant from the Economic Development Administration, \$15,000 from the City, \$15,000 from Downtown Partners, and \$10,000 from MidAmerican Energy.

FINAL AGENDA

IEDC Technical Assistance for Downtown Revitalization

Sioux City, Iowa
